Description and specification of function of the product:

The modular ventilation and air conditioning system VENTO is a piece of air conditioning equipment intended for ventilation and air conditioning of internal areas of buildings. It is to be used to transport, heat, cool, filter and mix air and to recover heat in the extent of volume flow rates of approximately 400 – 9,000 m³/h. The products are of a single-casing design made of zinc-coated (stainless) sheet. Outputs of the ventilators or the speeds of electric motors of the ventilators can be controlled through voltage.

- C. The Authorised Entity No. AO 227 The Research Institute for Ground Constructions – Certification Company s.r.o. (Ltd.), Pražská 16, 102 21 Praha 10 Hostivař which issued the Certificate No. C5-98-0190 for this type of product participated in assessment of conformity.
- D. The above mentioned product complies with the following harmonised technical standards and technical standards:
EN 294, EN 292-1, EN 292-2/A1, EN 60 204-1, EN 60 335-1/A55, 50081-1, EN 50081-2, EN 50082-1
- E. CE marking expresses compliance with:
the Directive of the Council 73/23/EHS in accordance with the wording of the Directive of the Council 93/68/EHS,
the Directive of the Council 89/336/EHS in accordance with the wording of the Directive of the Council 91/263/EHS, the Directive of the Council 92/31/EHS and the Directive of the Council 93/68/EHS,
the Directive of the European Parliament and the Council 98/37/ES in accordance with the wording of the Clause 21, par. 1 of the Directive of the European Parliament and the Council 98/79/ES
- F. The CE marking was placed on the product in 2005 .
